Summary & Objective

Front-End Developer with 1.5+ years of professional experience building responsive and high-quality websites using WordPress. Took ownership of a critical project by stepping in as lead and ensured 100% on-time delivery while maintaining strong quality standards.

Focused on creating clean, user-friendly, and performance-driven websites that provide a smooth experience across all devices. Passionate about delivering simple and effective web solutions.

Objective: Seeking a challenging front-end development role in a dynamic organization where I can apply my technical expertise, contribute to impactful projects, and continue enhancing my skills in modern web technologies.

Projects

Frontend Developer | Mantra Labs | Bangalore | July 2022 – Dec 2023

- Set up, developed, and managed multiple WordPress websites, ensuring stability, performance, and scalability.
- Handled end-to-end WordPress development, including theme customization, plugin configuration, and site deployment.
- Monitored website performance and resolved technical issues to maintain smooth functionality.
- Managed WordPress back-end operations, including plugins, tools, and database maintenance.
- Built SEO-friendly websites with optimized structure to improve search visibility.
- Enhanced website speed and overall user experience through performance optimization techniques.
- Implemented security best practices to protect websites from potential vulnerabilities.
- Performed regular backups and ensured data safety and recovery readiness.
- Integrated third-party tools and analytics solutions to improve functionality and tracking.
- Maintained clear documentation for website processes, updates, and configurations.

Major Projects

Mantra Labs (React.js, JavaScript, API Integration)

- Developed a dynamic task creation and tracking platform using WordPress, enabling real-time updates and smooth workflow management.
- Improved task loading performance by 25% through smart optimization and efficient data handling, resulting in a faster and more responsive user experience.

Near You (React.js, Responsive UI, Search Optimization)

- Created an interactive platform to discover local services, featuring responsive design and optimized search functionality.
- Enhanced user retention by 15% through UI improvements and reduced page load times.

Mini-Projects

Weather App (React.js, Tailwind CSS)

- Built a responsive weather application displaying real-time temperature, humidity, and forecasts.
- Implemented modern UI design principles with Tailwind CSS for a clean and mobile-friendly layout.

To-Do List App (HTML, CSS, JavaScript)

- Developed a task management tool with features to add, edit, and delete tasks.
- Designed a clean and intuitive user interface for better usability.

Simple Quiz (HTML, CSS, JavaScript)

- Created an interactive quiz application with multiple-choice questions and instant scoring.
- Enhanced user engagement through responsive design and real-time feedback on answers.

Technical Skills

Programming Languages: Proficient in React.js, JavaScript, HTML, CSS, Bootstrap, Tailwind, Chakra-UI, Material-UI, WordPress.

Software Development: Experience in developing and debugging applications, building scalable applications.

Software Tools: Familiar with software testing and debugging tools.

Analytical Skills: Strong problem-solving abilities and logical thinking.
